Dee, I'm not sure if these comments were incorporated in the last version. Can you confirm & get me the final version?

Thanks!

Good morning –

Thanks, Mike. Some suggested language for the second bullet (and consolidating #10 into this one).

Thanks, Kimi

Thanks, Cindy.

I'll defer to you and other policy people on the messages in the first two bullets. But just as an editorial point, I think it will sound odd for Shaun to read both the second and tenth bullets, because they are so similar. Whatever the message, I'd recommend consolidating #2 and #10 into one bullet.

Thanks, Mike. Regarding the very first two bullets, these are comments Shaun used just last week with ND Petroleum Council and ~30 operators and are used in HQ-vetted talking points.

Also, I think there is a fair bit of difference between "role" and "mission" so would suggest we keep both bullets. We want to assure the meeting attendees (UT Gov, operators, Ute Tribe, UDAQ) that our role is to work together with our various partners.

Thanks,

Cindy

Hi Dee and Cindy. Attached are some thoughts on these. I think it could benefit from others' review, assuming they have time, so am copying Kimi and Kim.

Darcy

For your review is a talking point and background paper on the U&O FIP for Shaun to use at a meeting with the UT Governor and industry reps next week (along with some additional background info we used for the Ute consultations).

As Dee notes below we are waiting for Mike and Cindy to review, but this is the latest version.

Carl,

I am still waiting for input from Mike Boydston and Cindy Beeler on this document, however, I thought you might get some inquiries today for it, so I thought I better at least give you the draft. I am also including a document with background information and other information that might be helpful for us at the meeting.

Thanks,

Dee
